- Optical isolation of input and output signals
- Wired communication with TECH controllers
- Transmission speed - up to 1Mbps
- USB / RS-232 TTL interface
- Direct cooperation with LPGTECH GAS SETTING software
- Transmission's LEDs
- Connector integrated in the casing
- Cable length: 3m, 5m

OptoTECH Communication Module

TYPE: The wire communication module   **MODEL:** OptoTECH

OptoTECH is an interface that enables a wired communication with the TECH controllers. It connects with the most of the available controllers.

The use of OptoTECH provides a stable connection with the control unit of gas installation.
