

- Exchangeable fiber glass filter insert
- Separation of the particles and liquid fractions
- Protection against injectors oily substances
- Improves the efficiency of the gas supply system

TECHNICAL SPECIFICATION:

- 99% filtration efficacy for particles of 1 μm
- Max. pressure: 4.5 bar
- Temperature range: -20 [$^{\circ}\text{C}$] to 120 [$^{\circ}\text{C}$]
- Gas outlets: \varnothing 10.6 / 12 mm
- Dimensions: 120 mm x 110 mm x \varnothing 68 mm

Perfect Blue volatile phase filter

TYPE: LPG volatile phase filter with oil fractions separation

MODEL: Perfect Blue

The volatile phase filter Perfect Blue efficiently separates all the impurities in the gas LPG. Assembly of the Perfect Blue filter effectively protects against oily substances and solid particles increasing the reliability of the whole gas installation.

INSTALLATION INSTRUCTION:

The Perfect Blue should be assembled between the reducer and the gas pressure sensor, in an easily accessible place, to the vehicle's body, in the same direction as the gas flow, vertically and in a place that should not be exposed to high temperature (max. + 120 $^{\circ}\text{C}$).
